

Warranty – Advanced Hurricane Technology (AHT) offers a limited warranty to the original purchaser against defects in the material or workmanship from the date of purchase and for up to a period of:

- **10 years on Hurricane Screen (black and black/ tan)**
- **10 years on Bug and Solar screen**
- **5 years on Tubular Motors**
- **5 years on powder coated products**
- **5 years on aluminum products –Roll Downs and Extruded**
- **1 year on Hurricane Screen (white and white/tan)**
- **1 year on Electric Roll down Controls and other Electronics.**

The word “defects”, as used in this warranty, is defined as imperfections which impair the utility of the product. This warranty is expressly limited to the replacement of individual components or parts having defects. If the product component is defective within the terms of this warranty, AHT will furnish a replacement component at no cost. Assembly labor if needed is not included in this warranty. All Warrantied items are only covered for the item’s cost of replacement; no labor costs for installation, repair, or replacement are included or in any way implied.

This warranty applies under conditions of normal use and does not apply to defects that result from intentional damage, negligence, misuse, unreasonable use, or interchange with non AHT parts. Being electro/mechanical systems exposed to weather, under this warranty AHT’s products require periodic maintenance to be performed by an authorized dealer under the following schedule: If the product is installed within a one mile radius from a body of water, every six months; If the product is installed at more than one mile radius from a body of water then maintenance should be performed once a year. It is strongly suggested that the maintenance schedule is performed prior to the beginning of the hurricane season and at the end of it. All implied warranties arising under state law are limited to the duration period of this warranty.
